

Faculty Membership Agreement

Support of the Center by the Member

The member agrees that she/he plans to support the activities of the Center through one or more of the activities below. It is understood that continued membership will be contingent on these continuing activities.

- Participation in center activities such as Research Nucleation Workshops, sponsor/industrial visits, and annual symposium.
 - Substantial use of Center facilities, such as the cleanroom and characterization cores, with acknowledgement on presentations and papers.
 - Management of a research grant through cMDIS.
-

Support of the Member by the Center

The services that the Center can provide to its members include:

- Invitations to Center events designed to initiate new research opportunities and collaborations, including visits by industrial and government sponsors, and Research Nucleation Workshops.
 - Office space, as available, for research groups of current Center members who make extensive use of Center facilities / collaborations.
 - Grant and proposal administrative support for grants attributed to the center.
 - Access to Center office facilities
 - Access to a pool of support for graduate student international conference attendance.
-
